

PRIME BEFORE INITIAL USE:

1. Shake can vigorously (until product moves inside can).

2. Firmly strike bottom of can onto palm of other hand or a hard surface at least 3 times.

3. Hold can upright and direct initial spray to a non-skin surface, such as into cap of can. **DO NOT spray directly on the skin as the initial spray may expel cold, liquid propellant.** Press down on actuator for 1 to 3 seconds until foam begins to dispense.

If foam does not dispense within 3 seconds, prime can again.

BEFORE EACH USE:

Shake can vigorously. Firmly strike bottom of can onto palm of other hand or a hard surface at least 3 times.

DURING USE:

Holding can upright, dispense foam into palm of hand, apply to affected area as directed by a physician, and rub in completely. Wipe off any excess foam from actuator after use.

Please refer to the product package insert for additional use instructions and other important product information.
